

PAINTLESS DENT REPAIR

Paintless Dent Repair, also known as PDR, is the process used to remove minor dents and dings from your vehicle.

With PDR, the need for sanding, painting, or body filler is avoided, preserving your vehicle's factory finish.

What Can PDR Fix?

Paintless Dent Repair can fix small shallow dents, under 4" in diameter, caused by:

- Parking accidents
- Bumped car doors
- Damage caused by gravel, pebbles, and other road debris

Benefits of PDR Coverage

Dent and ding coverage may not be offered with your vehicle's original factory warranty. With PDR, you can relax knowing minor accidents will be covered.*

Protect the Value of Your Vehicle!
